Dear Miss Melton;-

Am sorry to have to state that the women  
have thus far slighted our departemnt. We hope that the  
proposed otganization will call attention to this neglected  
opportunity-here and elsewhere-and render service to women  
and to the engineering profession.

With best wishes for the movement,

Yours sincerely,

My dear Miss Counts:

Replying to your letter of May 2, let me say that only one young woman has graduated up to this date from our College of Engineering. This is Miss Marie A. McMahon, present address, 129 South Willard Street, Burlington, Vermont. There is at present one young lady now taking the course, Miss Jane P. McIntosh, address, 81 North Willard Street, this city. In both cases, the young women chose the course of Civil Engineering. I hope this furnishes the information you desire. If any additional information is needed, please address me again.

Sincerely yours,

  
Dean.

Dear Miss Counts:-

I am in receipt of your letter of May 2nd.

We have no women students here at Stevens Institute of Technology. Our work is confined to a single course in engineering with some emphasis on mechanical and electrical branches. As I recollect we have never had but one application for the admission of a woman student. We are not equipped for the admission of women students for a number of reasons.

I am sorry that I am not able to assist you along the lines suggested.

Very truly yours,

Dear Friend:

I received your letter some time ago concerning the formation of an organization for the women in engineering, but I have been so busy that this is the first time I have found in which to give my reply.

Personally, I think such a society should be formed because I feel that there is a need for it. I feel that more interest would be shown by other women when considering the possibility of entering the profession and also it will help to bring all the women who are following this work some means of helping each other.

If I can be of any assistance

My dear Miss Counts:-

Replying to your letter of May 2, relative to the number of women students enrolled in the College of Engineering at the West Virginia University, I wish to advise that this is the first year that we have had any women students. This year, we have two girls who will graduate from High School this Spring and expect to take up Engineering next year. They are taking Mechanical Drawing. Their names and address are as follows:

Mildred Bloom,  
4 Forest Ave.,  
Morgantown, W. Va.

Florence G. Garletts,  
45 Euclid Ave.,  
Morgantown, W. Va.

Hoping that this is the information you desired, I am
