## History

---

Governmental Affairs is an office within the President's Department of ALPA. In its primary function, this office is the liaison between the union and Capitol Hill. It develops and maintains close working relationship with the Congress of the United States and its committees. The director advises various legislative bodies of ALPA policy objectives and interests, in addition to informing union membership and ALPA departments of events and transactions in the congressional arena. Although federal legislation constitutes most of Governmental Affairs concerns, state and local legislative actions are of interest to ALPA as well. A secondary

function of the department is to provide tourist aid to union members and their families when visiting Washington, D.C., including obtaining House and Senate gallery passes and special White House tour passes.

Part II: The Governmental Affairs Office is presently called the Government Affairs Department and is within the President's Department of ALPA. The primary function of the department is to lobby policy makers in the United States and Canada on behalf of the pilots. The department manages ALPA's Political Action Campaign (ALPA-PAC), and supports the ALPA-PAC Steering Committee, as well as the MEC and LEC Legislative/Political Action Committees, and the International Affairs Committee.
