The papers of the SEIU Secretary-Treasurer's Files: Affiliate Officers were placed in the Archives of Labor and Urban Affairs in February of 1994 by SEIU. The collection was opened for research in February of 1999.

Founded as the Building Service Employees International Union in 1921 with a core of janitors, window washers and elevator operators, the modern SEIU grew to become the largest health care union and second largest public employee union in North America by the late-1980s. Chartered affiliates operate throughout North America. For a history, please consult *A Need For Valor: The Roots of the Service Employees International Union, 1902-1992*.

This collection contains information about executive affairs, officer appointments and elections, and membership activity at the local union, joint council, and state conference levels. Many local unions and several joint councils have either merged into single organizations, or had their charters revoked during the period covered by the collection. Consequently, certain local unions have changed their designations and/or trade affiliations. Please consult the "SEIU Charter Book" for complete information regarding mergers and revoked charters. Also, check the "SEIU Charter Book" and the actual files for other names that affiliates were given, as the names occasionally changed. For organizational descriptions of affiliates please consult the SEIU Constitution and Bylaws.
