Material:**

Many other records from the AFSCME collections relate to the material found here, including AFSCME Office of the President: Jerry Wurf Records, AFSCME Office of the President: Gerald McEntee Records, AFSCME Office of the Secretary-Treasurer: William Lucy Records, AFSCME Office of the Secretary-Treasurer: Gordon Chapman/Joseph Ames Records, AFSCME Program Development Department Records, and AFSCME International Executive Board Records.

The AFSCME magazine has been published under three different names over the years: *Journal of State and Local Government Employees* (1937-1946), *Public Employee* (1947-2007), and *AFSCME Works* (2007-present). The AFSCME Communications Department is responsible for producing this magazine. A full run of the publication can be found in the Library collection. Likewise, the Communications Department is responsible for publication of the biennial convention proceedings and officers' reports. These also reside in the Library collection.

The Reuther Library holds a handful of AFSCME-produced videos from the 1980s as part of its UAW collection, and these are available for research.

Two photographs were removed from this collection and are stored in the Reuther Library vault. Photocopies of these images appear in the original folders. The first, in 55-95, has the signature of Lyndon B. Johnson, and the second, in 70-22, has the signature of North Dakota Governor George Sinner. Two posters (PC-272 and PC-273) used during the 1968 Memphis Sanitation Workers Strike are also stored in the Reuther Library vault.

Digital files related to the 1998 Convention are accessible on site at the Reuther Library. Digital images from the 2002 University of Maryland organizing campaign, and a 2001-2002 Powerpoint presentation from the AFSCME Education Department are also available.

Series X: Audio Visual Materials, Boxes 45-100, are stored in the Reuther Library Audio Visual Department stacks.

History

AFSCME has produced a regularly published magazine since its inception. Publication duties for this organ and other materials were accomplished by the Education and Publications Department for the first twenty years of AFSCME's existence. The 1954 Convention, however, passed Resolution 14, establishing a Publications and Public Relations Department. This new department would continue to publish the AFSCME magazine and other materials and would also take on new media public relations duties

both at headquarters, and importantly, in the field. Recognizing that current field staff's duties did not include crafting AFSCME's message during organizing campaigns and strikes, it was hoped that the new department would provide skilled public relations professionals on the ground. The new department was created on April 1, 1956. The Publications and Public Relations Department existed until 1971 when the name was changed to the Public Affairs Department. This existed until 2011 when the name was changed again to the Communications Department.

According to the 1968 departmental report, "The Department originates and produces publications for the membership and material to be used in organizing activities, prepares news releases and other publicity matter for use by the various communications media—the press, television, and radio." The department also writes speeches for AFSCME officials and helps orchestrate the biennial conventions and other meetings and conferences. Also, as might be expected, in more recent years, AFSCME web initiatives have become a major focus for the department as AFSCME outreach and communication has moved into the digital world.

The records in this collection primarily pre-date the web and were created during the production of AFSCME publications (the photographs in Series X: Subseries A were largely used in the AFSCME magazine), publicity, events, video and audio, and during the everyday operations of the Department.
