Abstract
AFSCME Publications is a collection comprised of serials created and collected by AFSCME International, District Councils, and Locals. The collection also contains material produced as part of AFSCME’s biannual international conventions and articles published about AFSCME from an academic standpoint. The publications in this collection arrived at the Reuther Library over time and came from multiple sources.

The collection features AFSCME’s official publication, which was first known as The Journal of State and Local Government Employees (1937-1947), then Public Employee (1947-2007), and later, AFSCME WORKS (2007-Present). Much of the collection is made up of newsletters produced at the District Council or Local level between 1968 and 1974, illustrating the issues relevant to different types of AFSCME workers during a formative time for the Union.

Scope and Content
AFSCME Publications documents the union’s public image and method of communicating with members. Publications in the collection include constitutions; materials produced in relation to AFSCME’s biannual conventions; newsletters and magazines produced by AFSCME Headquarters, District Councils, and Locals; and flyers, meeting announcements, and negotiation updates. Publications produced by scholars and groups critical of AFSCME are also located in this collection.

Series 1: Convention Materials and Constitutions, 1935-2012
This series is comprised of materials produced for AFSCME’s Convention, held biannually after 1938. No convention took place in 1944. Convention proceedings make up the bulk of this series, though some years also have Convention Calls, Delegate Guides, or Reports from the Executive Board, headquarters departments, Judicial Panel, officers, President, and Secretary-Treasurer. Box 15 contains Judicial Panel Reports, which remained separate from Convention Materials in the original order of this collection.

Series 2: AFSCME International Publications, 1937-2013

Two volumes, produced in 1980 and 1981, list locals by geographic location and can be found in this series under the title “Numeric Sequence Report.”

The publications in this series were aimed at AFSCME subgroups, such as stewards, librarians, and retirees. Newsletters make up the majority of this series, but it also includes training
materials for career advancement entitled *Career Ladder*, a steward manual, and an education guide. Brochures and flyers are located at the end of this series and reflect member meetings and issues of interest in negotiations.

Many District Councils published their own newsletters and other materials. This series consists mostly of newsletters produced by District Councils across the United States and Puerto Rico. Flyers, meeting notices, and information about ongoing contract negotiations can also be found in this series. The publications range from 1944-2013, though the majority of the publications were produced between 1967 and 1974.

This series is comprised of publications produced by AFSCME locals across the United States and its territories. Newsletters make up the majority of the materials, but some locals have also contributed flyers, materials related to contract negotiations, and meeting reminder cards. The bulk of this series was created between 1968 and 1974.

**Series 6: Outside Publications, 1961-1979**
This series contains AFSCME-related publications produced by outside sources, such as labor newspapers and academic publications related to public sector employees, collective bargaining, and labor relations. Publications produced by AFSCME-critical groups, such as COUR (Committee on Union Responsibility) and IUCRSSE, can also be found in this series.

**Series 7: Bound Volumes**
This series consists of bound volumes of AFSCME-related publications. The bulk of the series is made up of issues of *Public Employee*, though the series also contains several bound volumes of *Public Employee Press*, produced at the District Council level.
