Not included are the following groups whose names are carried on the official List of Student Organizations: Activity groups of quasi-instructional character associated with Speech Dept., and Music and Music Ed. Depts.; the student publications; the class boards.

It is to be recognized that many of our present groups originated under a different name than that by which ~~they~~ ^{they are} now known. Where there has been a clear line of descent, the earliest date is given. Many present groups of relatively recent origin have had one or more similar predecessors in the past, which became inactive, and from which present groups are not directly derived.
