Access: Collection is open for research.

Abstract

The newsletter *News Notes* was published by the Wayne State University School of Medicine Department of Physiology and Pharmacology, beginning in 1962. The newsletter provided information about the research activities of the department's faculty members and students; it was compiled by Walter H. Seegers, chairman of the department. After a departmental reorganization in 1971, the Department of Physiology continued to produce *News Notes* until shortly after Seegers's 1980 retirement.
