RECEIVING HOSPITAL

GRADUATION ISSUE

This June the 90th class graduates from Wayne State University College of Medicine. These 90 classes have represented many people and many ideas about what is a proper medical education. Some bold experiments in the process of educating a physician have been made. More, and perhaps bolder, will be made. Through the years that have passed the guiding thought has been a quality program for the quality human beings who are to be your physicians. We hope that experimentation in the ways of medical education will never stop and that its ideal will never change.

# GRADUATION TIME: 1959

## 66 MD Degrees Conferred at WSU Commencement

DETROIT, June 11 — Doctor of Medicine degrees were conferred on 64 men and two women from Wayne State University College of Medicine at commencement exercises in the State Fair Coliseum, today.

They were among the 1,575 degree candidates to receive diplomas from Dr. Clarence B. Hilberry, president of the University . . .

Stories like this with different names and datelines are told all around the country this month.

These announcements, along with the June brides, are an annual statistic — except to their parents, wives and friends.

All of them — fathers, mothers, grandparents and the students — could tell a story of the struggle to reach

graduation day. Some would be of financial sacrifices; others of victory over physical handicap; and some of language barriers.

For those who worked, cajoled and encouraged the graduate, "their story" is forgotten today. When their eyes become moist — it is a private emotion, but shared and understood by many.

Even the most disinterested spectator cannot be immune to the pride, joy and expectation of the graduate as he adjusts the silken tassel on his mortar-board waiting for the first strains of "Pomp and Circumstance."

This day is an end and a beginning.

For the W.S.U. medical graduate, receiving his diploma at the evening commencement service is an anticlimax.

He anticipates most Senior Convocation held several hours earlier in the Wayne County Medical Society auditorium.

In this auditorium, filled with parents, friends and faculty, he will patiently listen to speeches and award presentations, then:

A distinguished professor and physician will walk to the center of the platform and ask his former students to rise.

Dr. John Dorsey, chairman of the psychiatry department will then deliver a prologue before administering the Hippocratic Oath.

C. DAVID JONES

The words he will speak could embrace these thoughts: In our profession it is a custom established more than 2,000 years ago, that no one may be admitted to its honors who has not first expressly taken upon himself its obligations. Now, in behalf of your elders, I call upon you to take, as we have taken before you, the oath which bears the name of Hippocrates. The language in which our predecessors first pronounced it is no longer spoken; the very gods whom they called to witness have been discarded, but still we can find no nobler words than the most ancient in which to hand down the traditions of our calling.

*I solemnly pledge myself to consecrate my life to the service of humanity.  
I will give to my teachers the respect and gratitude which is their due;  
I will practice my profession with conscience and dignity;  
The health of my patient will be my first consideration;*

*I will respect the secrets which are confided in me;  
I will maintain by all the means in my power, the honor and the noble traditions of the medical profession;  
My colleagues will be my brothers;  
I will not permit considerations of religion, nationality, race, party politics or social standing to intervene between my duty and my patient;  
I will maintain the utmost respect for human life, from the time of conception; even under threat, I will not use my medical knowledge contrary to the laws of humanity.  
I make these promises solemnly, freely and upon my honor.*

This is what they have worked toward and at times fearfully prayed they would hear. The diploma will be framed and hung on their office wall. The Hippocratic Oath which they have solemnly agreed to uphold will be the invisible but constant companion of their conscience until death.

During Senior Convocation, the following seniors were honored for scholastic achievement:

- Forrest Arnoldi . . . Alumni Scholarship Award for the highest grades throughout his four years in medical school
- L. Carl Samberg . . . . . William H. Honor Memorial Scholarship for the outstanding student in Surgery
- Larry Dickson . . . Distinguished Service Award for extracurricular activities
- Robin Key . . . . . Angus McLean Award for outstanding efforts in research
- To Be Announced . . . . . Alexander McKenzie Campbell Award for outstanding work in Obstetrics and Gynecology.
- To Be Announced . . . . . Gordon B. Meyers Award for outstanding work in Medicine

91ST REUNION 'BIGGEST'

# Dr. Clarence I. Owen

## New Alumni President

Dr. Theodore I. Bergman '32 turns over the president's gavel to Dr. Clarence I. Owen '20. Only a week previous to the Reunion, Dr. Owen retired as president of Wayne County Medical Society.

IN THE past few years, every alumni reunion has been proclaimed "the best."

This year quantity was added to quality.

Three hundred and eleven alumni and guests attended the dinner dance at the Hotel Fort Shelby, May 13. Previous top attendance was 212.

In post-banquet ceremonies Dr. Theodore I. Bergman '32 turned over the president's gavel to Dr. Clarence I. Owen '20. Only the week before, Dr. Owen had completed his term as president of Wayne County Medical Society.

Recipients of the distinguished service citations were Dr. John E. Webster '35, clinical associate professor of medicine, and Dr. Loren W. Shaffer, professor emeritus of dermatology and syphilology.

Dr. Webster was honored for his outstanding research and writings in neurosurgery and efforts in fund raising for the Medical Library fund and the Wayne County Medical Society building.

John H. Webster II, 17, a senior at Grosse Pointe University school in accept-

ing the award for his father, charmed the audience with his warmth and poise. Dr. Webster was unable to attend because of illness.

Dr. Shaffer was cited for his excellence in teaching through his 32 years with the College of Medicine. His work in developing the Social Hygiene Clinic of Receiving Hospital into national prominence as a treatment center was described. He was chairman of the dermatology department and director of the Clinic for 21 years. He retired in 1957. The presentations were made by Dr. Owen.

A plaque and \$50 were given to senior medical student Forrest Arnoldi and sophomore Martin Nosan by Dr. Lawrence Pratt '35, honorary president of the alumni. The awards are given annually for the student having the highest grades throughout medical school.

Dr. Osborne A. Brines '27 presented golden anniversary diplomas to four members of the class of '09. (See 50-year story).

John Webster II (above) making acceptance speech for the distinguished service citation honoring his father, Dr. John E. Webster (center) who was unable to attend reunion due to illness. Dr. Loren W. Shaffer (below left) accepts his citation from Dr. Clarence I. Owen.

Sophomore scholarship award winner Martin Nosen shows his wife his citation as senior scholarship recipient Forrest Arnoldi looks on.

## 50 YEARS AT A GLANCE

Henry Cook, Flint, was born in 1886. He was chief of staff at Hurley Hospital for 10 years. He is a past president of the Michigan State Medical Society and Industrial Physicians and Surgeons Association. Dr. Cook has four sons; two are M.D.'s in surgical residency training at Louisville General Hospital, Ky.

Albert L. French of Detroit was born in 1884. He was in general practice and a specialist in forensic medicine for 50 years. Dr. French was coroner 10 years, Wayne County physician 6 years and Chief Medical Examiner 4 years. He taught gross pathology at the Detroit College of Medicine. He was chief of Detroit Welfare medical service. He has one son, Albert, Jr., in general practice in Denver.

Euclide V. Joinville, Detroit and Windsor, was born in 1884. He studied EENT at the New York Postgraduate school and the University of Vienna. In 1945, he was chief of staff of St. Mary's Hospital in Detroit. He is certified by the American Board of Ophthalmology and Otolaryngology. He is an honorary member of the American Medical Society of Vienna and the Essex County Medical Society (Windsor, Ontario). Dr. Joinville has three daughters and 18 grandchildren.

Alfred A. Wade has practiced 50 years in Howe, Indiana. Recently he was honored by Howe and surrounding communities with an all day celebration and banquet for the service he has rendered. He is a member of the Board of Trustees of Howe Military Academy and Sturgis Exchange Club. His daughter Alice is head record librarian at Baptist Memorial Hospital, San Antonio, Texas and his son Frank is president of Detroit Harvester Company.

Unable to attend the reunion:  
Guy Briggs, Flint  
John C. Sandford Brown, Orange, Calif.  
William G. Coulter, Windsor, Ontario  
Edward J. O'Brien, Detroit  
Burton L. Rockwell, Oriskany Falls,  
New York  
Alexander M. Stirling, Grosse Pointe  
Park, Michigan.

*Dr. Osborne A. Brines '27 presents Dr. Henry Cook with his golden anniversary diploma.*

*The four fifty-year graduates honored, from left, Dr. Euclide V. Joinville, Dr. Albert L. French, Dr. Henry Cook, and Dr. Alfred A. Wade.*

## CLINIC DAY PROGRAM

(Surgery) Early Management of Upper Gastrointestinal Bleeding, Leonard F. Vanraaphorst, M.D.; A Clinico-Pathological Study of the Relation of Histology to Prognosis in Carcinoma of the Thyroid, C. Jackson France, M.D.; Acute Arterial Occlusion, Warren O. Nickel, M.D.; Traumatic Rupture of the Spleen, Donald E. Economy, M.D.; Operative Cholangiography as a Possible Routine Procedure, Saul Sakwa, M.D.; Abdomino-trans-sacral Resection of the Rectum, Don W. McLean, M.D.

(Medicine) Advances in the Treatment of Leukemia, Arnold R. Axelrod, M.D.; Kidney Biopsy in Renal Hypertension, Yoshikazu Morita, M.D.; Comments on Cholesterol, George C. Thosteson, M.D.; Inter-Sex Problems, Robert B. Leach, M.D.;

(Pathology) Hemoglobin Levels and Blood Transfusion, Rosser L. Mainwaring, M.D.; The Problem of the False Positive Cervical Smear, Elmer R. Jennings, M.D.

(Anesthesiology) Anesthesia in Children, Edward T. Glowacki, M.D.

(Obstetrics and Gynecology) Incidence of Carcinoma of the Cervical Stump, Charles E. Darling, M.D.

(Radiology) Pleural Fluid as Viewed by a Radiologist, W. George Belanger, M.D.

(Psychiatry) The Psychiatric Referral, Benjamin Jeffries, M.D.

Comments on Recent Advances in Therapy closed the scientific session. Panelists were: Osborne A. Brines, M.D., Charles G. Johnston, M.D., and Muir Clapper, M.D.

*Dr. Louis Hirschman '99 receives congratulations from Dr. Edwin F. Dittmer for having missed only five alumni reunions since his graduation 60 years ago. Dr. Hirschman, 81, is called the father of proctology—he was the country's first specialist and wrote the first text book on the subject. He is the oldest living past president of the Wayne County Medical Society. He has also served as president of the medical alumni association and Michigan State Medical Society. Dr. Hirschman is now retired and living in Traverse City.*

## NEW OFFICERS

1959-60 Officers of the Medical Alumni Association are:

President—Dr. Clarence I. Owen  
President-elect—Dr. Duncan A. Cameron  
Secretary—Dr. Paul Rizzo  
Treasurer—Dr. Edwin F. Dittmer  
Board of Governors:

Dr. Jacob Wenzel  
Dr. Benjamin Jeffries  
Dr. Kenneth Wood

## PRE-REUNION REUNION '29er TRADITION

THEY'RE NOT really rebels—the class of '29—but they give cause for wonder because:

They annually hold their own reunion the night before the big one at another hotel.

Theirs' is a tradition begun during the thirties. Dr. Harold Stubbs perennial organizer can't remember the exact year.

The time, place, menu and format has never changed. Cocktails begin at 7 p.m. with a New York strip sirloin when the group is ready.

After dinner each man takes his turn at telling news of his work, family or hobbies for the previous year. Then more socializing.

Attendance has always been at least 50 percent of the class of 41 graduates.

Dr. Stubbs' record, which he began in 1948, indicates six have perfect attendance. They are: Henry Chall, N. J. Kapetansky, Chester Kulaska, Howard MacFarlane, Ralph Piper and George Troester all of Detroit. Many others such as Dr. Stubbs, have missed only once or twice.

Reading clockwise: Paul Rick, Charles Hodge, N. J. Kapetansky, Manuel Handelman, Henry Chall, Joseph Hickey, Ralph Piper, Tracey Owens, Harold Stubbs, Robert Leacock, Duncan Salot, Charles Spier, Earl Spohn, Howard MacFarlane, Walter Wilson, George Troester and Chester Kulaski.

Attending this year in addition to those mentioned above were: Manuel Handelman, Detroit; Joseph Hickey, Detroit; Charles Hodge, Reading, Mich.; Robert Leacock, Detroit; Tracy Owens, Indianapolis; Paul Rick, Detroit; Duncan Salot, Lebanon, Ky.; Charles Spier, Lansing; Earl Spohn, Royal Oak and Walter Wilson, Detroit.

## ALUMNUS DROLETT HONORED AGAIN

ALUMNUS DR. Fred J. Drolett, recently honored as "Michigan's Foremost Family Physician," was one of five named for 1959 Alumni Awards of Wayne State University.

Presentation of the award was made at the 91st Reunion banquet May 16 in the Sheraton Cadillac Hotel.

Dr. Drolett has been a general practitioner in Lansing for more than 50 years. He has served as chief of obstetrics at St.

Lawrence and Sparrow hospitals and chief of staff at St. Lawrence.

In 1941-42, Dr. Drolett was president of the Ingham County Medical Society. He received the Outstanding Citizen Award from the Lansing Lodge of the Elks for 50 years of devoted service to the community as a doctor of medicine.

Dr. Drolett was born in Port Huron in 1879. He graduated from the Detroit College of Medicine in 1907.

## Senior Talent Tops At Aesculapian Frolic

THE SENIOR class won a special trophy for top talent at the Aesculapian Frolic April 24. And, it's been many a year since a class has so richly deserved what they received.

A capacity crowd at Rackham auditorium acclaimed their lampoon on eastern medicine which had a musical assist from "My Fair Lady."

Runner-up was the freshman class with a trip through the Roman Underworld—Virgil guiding the way.

Between skits junior president Ron Seltzer presented Dr. Tomiharu Hiratzka, associate professor of pathology with "The Lamp" trophy. This trophy is given each year "in recognition and appreciation of those who have shared with us the light of their knowledge and who have extended to us the warmth of their friendship."

Previous winners: Osborne A. Brines, '57; Nicholas S. Gimbel, '56; Muir Clapper, '55; John Dorsey, '54; Muir Clapper, '53; and Elmer R. Jennings, '52.

Larry Dickson, senior is president of the Aesculapians.

This is a scene from "Bring 'em Back Bent," trophy winning senior skit at the Aesculapian Frolic. Dancing patients are from left, Bernard "Bud" Bigley, Dalton Black and Forrest "Todd" Arnoldi.

For being a friend in addition to being a good teacher, Dr. Tomiharu Hiratzka, associate professor of pathology, receives "The Lamp" from junior class president Ronald Seltzer.

## It's Not All Fun and Frolic

THE AESCULAPIANS have made their fame on campus as producers of the annual spring "Lampooning" show.

But they are not only leaders of fun and frolic.

In 1955, ten juniors and seniors revived the Aesculapian Society which had been inactive since World War II. Their purpose: assist faculty and students with extracurricular planning of events.

They help with freshman orientation, the Dean's tea in October, a spring Open House, and they duplicate and distribute to the student body the weekly program for the student-faculty assembly.

This past year the group has sponsored the student newspaper, "The Bruit" with funds supplied by the University student activity fund.

The membership is limited to five juniors and 10 seniors. Representatives are chosen by class vote.

## *The Newness Of It All*

In every direction the change around the medical campus area can be seen, heard and collected in the form of dust or mud.

The transformation is generating excitement and pride despite some of the current handicaps.

Old timers in this area see the greatest contrast.

Newcomers and visitors see enough remnants of the area's bleak past to share this appreciation.

Gratiot Redevelopment which began in 1950 will probably not be completed for at least six years.

In the meantime:

The biggest gripe from students, doctors, nurses, policeman, fireman and others working in this section is the Walter P. Chrysler expressway. Prime reason is loss of parking lots. Several thousand car owners enjoyed the convenience of parking in lots along Hastings avenue until last winter when construction finally closed them.

Student-faculty pedestrians trudge daily

from the hospital area to the Medical Science Building or Lafayette Clinic through an obstacle course of mud or dust, planks, pits, bulldozers or other road building equipment.

The pedestrian bridge should be completed about July 1.

Parking problems for many daytime residents will not be solved for sometime.

The Municipal Parking Commission has indicated they would like to construct a pavilion adjacent to Receiving Hospital in a half block area bounded by Macomb and Monroe avenues.

Receiving Hospital staff will have the loan of a million dollar strip of concrete for parking sometime next fall when the expressway section fronting the Medical Science Building is completed.

City authorities will begin condemnation proceedings on Central Business District No. 3 for redevelopment sometime this fall (See map).

Among those forced to find new locations will be Nick the Greek, a favorite

dining spot for Receiving Hospital staff and George, whose bookstore is the Detroit Bank annex.

The old College of Medicine building of 1897 vintage will be razed at the corner of St. Antoine and Mullett sometime in the near future.

In the meantime, the University has indicated to the City Plan Commission they would like to obtain land in C.B.D. No. 3 (See Map).

The University of Detroit Dental School is expected to be one of the first new occupants in C.B.D. No. 3. Their present site on Jefferson at St. Antoine must be vacated within the next two years to make way for the expressway.

Franklin Carr, administrator of Detroit Memorial hospital said, "We have a priority option on parcel No. 2 of C.B.D. No. 3. This property may be used for (1) a parking pavilion; (2) a doctor's office and clinic building combined with a parking structure; (3) research and teaching building. We also plan a new building on our present site for replacement of existing buildings. Service facilities will also be expanded."

There are tentative plans to build a storage building for Receiving Hospital near the proposed parking building ac-

ording to Dr. Ralph Piper, superintendent.

The new million dollar Industrial Medicine building on Mullett street next to the Clinic Laboratories Building will officially open in September.

A parcel of land now owned by the University is bounded by Larned, Lafayette, Rivard and the expressway.

The University has made overtures to obtain land in the area bounded by Larned, Lafayette, Rivard and into the block east of Russell (See photo). This land, if obtained, will be used for student-faculty apartments.

Rising east of the Medical Science Building is the sleek urban housing development Lafayette Park.

The 22-story Pavilion Apartment building was completed last October. Few vacancies are left.

*Pedestrian Bridge*

*Industrial Medicine Building*

Wayne County Medical Society

Almost ready for occupancy are six single story courthouses and 42 two-story townhouses. Being constructed are a total of 24 courthouses of five, six and seven rooms and 162 two story townhouses of six rooms plus basement.

Also planned are five more high rise apartment buildings, 16 courthouses and 136 townhouses.

Lafayette Park will have an estimated population of 7,000 when completed.

Across the center of the development, a 25-acre park is now being planted by the Department of Parks and Recreation.

In September a public school for grades from kindergarten through eighth will be opened, according to Maxwell Fader, Detroit representative of the developer Samuel N. Katzin of Chicago.

This community now contains a food commissary, a valet shop, a beauty parlor, a barber shop, receiving room and laundry.

When completed the 55-acre community will have a recreation center with swimming pool, private club and restaurant, skating rink and garage.

The new medical campus area is an eastern link to downtown Detroit's new look. These panoramic photos were taken by Monroe D. Stroecker, of The Detroit News for "The Bulletin." The 180 degree view below was taken from the 19th floor of the Pavilion Apartment building. The picture above was taken from the roof of Receiving Hospital to illustrate the Walter P. Chrysler Expressway. The pedestrian footbridge is almost directly in front of the (A) Medical Science Building. Other buildings: (B) Lafayette Clinic; (C) Wayne County Medical Society; (D) Pavilion Apartments; (E) Lafayette Park.

# Receiving's Research Corporation Unique

SINCE RECEIVING Hospital Research Corporation was formed seven years ago, more than a half million dollars has been spent in support of medical research, equipment and education.

Next year's budget of \$100,000 for 28 research projects was recently approved by the Board of Trustees.

This money is not derived from tax funds but from fees for professional care of non-indigent emergency cases and patients with medical insurance.

Because the medical staff, by signed consent, can not accept fees for their services the Trustees of the Corporation strive to render full benefit to the community from which the money comes.

Scores of patients have benefited from special clinical equipment such as the artificial kidney. It is believed to be first and one of three in the state. Cardiovascular surgeons have Corporation-financed equipment such as a disc-oxygenator heart-lung pump. And there are many more examples.

But community benefits of the Corporation are not only in equipment.

All research being supported has direct clinical application.

The Corporation has helped many researchers start projects which can later receive support from other sources.

Many resident physicians and staff members have their expenses paid to national medical meetings—a good number present papers. Reprints of several hundred articles have been purchased representing work done by the hospital staff.

Books, journals subscriptions and the services of a librarian are paid by the Corporation.

The Board of Trustees is elected at an annual meeting; three members are elected each year for three year terms. A tenth member is ex-officio representing the Board of Health.

Officers are: Dr. James E. Lofstrom, president; Dr. Charles G. Johnston, first vice president; Dr. Osborne A. Brines, second vice-president; Dr. Lawrence Berman, secretary; Dr. Gaylord S. Bates, treasurer.

Research grants are made on a project basis. Each year requests are submitted by department heads for research they wish supported. Progress reports on approved projects are made annually.

The hospital's corporate venture is unique in the field of medical research.

PEOPLE AND EVENTS MAKE

## College of Medicine NEWS

COLLEGE OF Medicine faculty exceeded all previous literary efforts in the past 12 months. They contributed six books and 250 papers to medical literature. The books: "Head Injuries" by E. S. Gurdjian, M.D. and John E. Webster, M.D. (Little, Brown & Co.); "Fundamentals of Neurology" by Ernest Gardner, M.D. (W. B. Saunders Co.); "The Child With a Handicap" edited by Edgar E. Martmer,

M.D. (Charles C. Thomas Co.); "Human Biochemistry" co-authored by I. S. Kleiner, Ph.D. of New York Medical College and James M. Orten, Ph.D. of W.S.U. (The C. V. Mosby Co.); "Readings in Psychoanalytic Psychology" edited by Morton Levitt, Ph.D. (Appleton-Centry-Crofts, Inc.); "The Middle Ear" by Heinrich G. Kobrak, M.D. (U. of Chicago Press).

## WSU Top-Pulling Film Revamped; AMA Sees Premiere

ONE OF the most popular film series in the American Medical Association library for the past 15 years is being "modernized" by its creators at Wayne State University College of Medicine.

The original 15-reel color film on "Physical Diagnosis" has been revised to include some of the top teachers in American medicine demonstrating their specialties in color and with sound.

Frederick J. Margolis, M.D. of Kalamazoo, director of Audio-Visual Education for the College of Medicine has supervised the new project.

Premiere of the film, by invitation, will be in June at the A.M.A. national session in Atlantic City, N. J.

A.M.A. film library director Ralph P. Creer said the films received in 1943 "became increasingly and consistently more popular." Approximately 350 requests a year are received, some from medical schools as far away as Tokyo and Saudi Arabia.

Twenty medical schools have purchased the film for their own use.

"Good clinical teaching requires a combination of circumstances," said Dean Gordon H. Scott of the College of Medicine. "There must be a number of patients with ailments in sufficient variety to afford coverage of the subject. With this available, teachers have but one of the basic needs for a good presentation. It is difficult to organize such a presentation, as chance must govern the time when people with different disorders come to the teachers. In these films, we seek to bring the sick, the skilled teacher and the questing student together so that each may benefit."

Authorities and areas to be presented in the first of the series are: Dr. Franklin H. Top, State University of Iowa and Dr.

Louis Weinstein of Boston—Contagious Disease; Dr. C. G. Van Riper, Western Michigan University and Dr. Paul H. Holinger, University of Illinois—Disorders of Speech; Dr. William T. Green, Harvard University—Orthopedic Gaits and Dr. A. M. Ornstein, University of Pennsylvania—Neurological Gaits; Dr. George Shambaugh, Northwestern University—Disorders of Hearing.

Clinical examples of disease illustrated in the original films were photographed at Detroit Receiving and Wayne County General hospitals from 1939 to 1943 by Drs. Gordon Myers, Muir Clapper and Margolis. Dr. Myers, professor of medicine and chief of the W.S.U. Medical section at Harper Hospital and Dr. Clapper, professor and acting chairman of the Department of Medicine are consultants on the new film.

Financial sponsor for the first four reels are Ciba Pharmaceutical Products, Inc. Photographer is Rex Flemming of Santa Barbara, California. Filming locations have been hospitals in Boston, Philadelphia, Chicago, Wayne County General and Receiving in Detroit.

About five years will be required to cover the approximately 20 areas planned for the film, Dr. Margolis said. Estimated life of the films should be 15 to 20 years due to the non-changing character of the subject matter.

### \$2,500 GIFT

The Standard Accident Insurance Company has given the Department of Industrial Medicine \$2,500 for the purchase of books and journals. The money will be expended over a five year period for domestic and foreign journals and significant books in the fields of industrial hygiene and medicine.

# \$1 Million Dollar Building to House Occupational Health Research

OFFICIAL OPENING of the million dollar Industrial Medicine Building will be September 1, according to Dr. Arthur Vorwald, professor and chairman of the department.

"In connection with ceremonies dedicating this building, we hope to have a one day symposium on 'Occupational Health.' Both local and national officials who have an interest in occupational health will be invited."

Research to be conducted in the building will include study of atmospheric pollutants, including radioactive substances and vehicular health hazards pertaining to certain occupations.

Two floors are especially designed and equipped for radiation studies.

The four-story building will have a laboratory for study of exhaust fumes on the first floor with an entrance for automobiles.

Classes for undergraduate and graduate students in occupational health areas will be held in the new building.

\* \* \*

A SUMMER Institute in Radiation Biology beginning June 22 will again be directed by the Department of Industrial Medicine and Hygiene.

Twenty participants from 12 states have been accepted for the six week session. The Institute is sponsored by the Atomic Energy Commission and the National Science Foundation. In addition to Michigan, participants will attend from Kentucky, Virginia, Alabama, Mississippi, New York, Massachusetts, Pennsylvania, Ohio, Illinois, Wisconsin and California.

\* \* \*

TWO MEDICAL doctors, a veterinarian and several Detroit Health department

officials are among the 15 enrolled in the new Industrial Health masters degree program.

The program, which started in February, is directed by the Department of Industrial Medicine.

Classes are held from 3 p.m. to 7 p.m. daily and on Saturdays, according to Dr. Ralph Smith.

Instructors include Dr. Smith, Dr. Arthur Vorwald and Edward Urban.

Major teaching contributions are also being made by Dr. William G. Fredric, director of the Bureau of Industrial Hygiene, Detroit Health department and his associate, George M. Hama.

\* \* \*

A RESIDENCY program in Industrial Medicine and Hygiene will begin July 1.

Selected as the first resident is Dr. Sanford Boley, 1958 graduate of the College of Medicine. Dr. Boley, who is completing his internship at Bon Secours Hospital, also has a Ph.D. in chemistry from Wayne State.

According to Dr. Arthur Vorwald, department chairman, residents will spend a year and a half in an academic environment and the same time training in medical departments of approved industries. They will then be eligible for board examinations.

## BURTON HONORED

Honored this spring by his high school in Nashville, Tenn., was Dr. John F. Burton, instructor in pathology and pathologist at Veterans Administration Hospital. Dr. Burton was the principal speaker on "Inspiration Day" to the Friends of Wisdom Society at Cameron high school. He was given a plaque as the 1959 honoree.

## Lectureship to Honor Dr. Milton Darling

A LECTURESHIP honoring Dr. Milton A. Darling, prominent Detroit obstetrician and gynecologist was announced at the first annual "Residents' Day" dinner.

Dr. Charles S. Stevenson, professor and chairman of obstetrics and gynecology cited Dr. Darling for his contributions to medical education. Specifically he mentioned the resident training program Dr. Darling developed at Grace Hospital.

Dr. Darling is president-elect of the Michigan State Medical Society and a past president of Wayne County Medical Society.

He is a graduate of the University of Michigan Medical school and joined the Grace Hospital staff in 1916.

## World Famous Denny-Brown Gets Honorary Wayne Degree

AN INTERNATIONALLY known Harvard Medical School neurologist will receive an honorary degree from Wayne State University, June 11.

Dr. Derek E. Denny-Brown, James Jackson Putnam professor of neurology and chief of Boston City Hospital will receive an honorary doctor of laws degree at commencement exercises in the State Fair Coliseum.

Dr. Denny-Brown was a three day visitor to the College of Medicine in January. He gave lectures at Lafayette Clinic and the Wayne County Medical Society.

For more than 30 years, Dr. Denny-Brown has served as lecturer, consultant and research director for hospitals, medical schools and military medical commissions of England, Indian and the United

States. He is a graduate of Oxford University and a member and Fellow of the Royal College of Physicians.

Dr. Denny-Brown joined the Harvard staff in 1946. He is the author of 100 papers and three standard texts in the physiology of the nervous system, neuropathology, concussion and the histology of the nervous system.

Dr. John S. Meyer, professor and chairman of the neurology department is a former student of Dr. Denny-Brown.

## Nutritionists Hear 4 Speak at March Meet

"INORGANIC FACTORS in Nutrition" was the topic discussed by four nationally known authorities Friday, March 20 at the fifth annual Nutrition Conference.

More than 150 scientists and dieticians attended the one-day College of Medicine conference in the David Whitney House auditorium. The conference is sponsored by the department of Physiological Chemistry.

Topics and speakers were:

"Trace Elements—Factors in Normal and Abnormal Nutrition," George K. Davis, Ph.D., professor of nutrition, University of Florida.

"The Medical Significance of Potassium Deficiency," William B. Schwartz, M.D., professor of medicine, Tufts University School of Medicine.

"Iron Metabolism and the Pathogenesis of Iron Deficiency Anemia," Carl V. Moore, M.D., professor of medicine, Washington University School of Medicine.

"The Calcium Requirement," D. Mark Hegsted, Ph.D., associate professor of nutrition, Harvard University School of Public Health.

## Research Projects Set For Mental Health Year

WORLD MENTAL Health Day, April 7, was observed by the department of psychiatry through an open staff meeting at which time special research projects were designated for World Mental Health Year in 1960.

Dr. John M. Dorsey, department chairman, named the following as selected by the staff for special emphasis: (1) the problem of child care and psychological aspects of education as well as psychiatric education in a medical school; (2) the mental health of the college student; (3) problems of convalescence, vocational rehabilitation and the psychological aspects of industrial medicine; (4) problems of migration and the migratory worker; (5) problems of addiction, including alcoholism and its industrial aspects; (6) problems of depression and suicide, with special reference to the rescue fantasy.

Work on these projects will be mostly inter-disciplinary.

## Blood Scientists Meet at McGregor Memorial

THE MANY facets of coagulation represented a major portion of the research described at the Eighth Annual Symposium on Blood held in January at the McGregor Memorial Conference Center.

During the two-day meeting, scientists discussed human bone marrow and transplantation, platelet disorders, studies on phospholipides, prothrombin regenerating capacity, intravascular clots, non-enzymatic induction of fibrinolysis, plasminogen activation, thrombolysis in man and other subjects.

Papers were presented by scientists from Jefferson Medical College, Henry Ford Hospital, the Universities of Notre Dame, Wisconsin, Colorado, Texas, Rochester; New York University; Washington University; Purdue University; Indiana University; U. S. Army Medical Research Laboratory; Merck Institute for Therapeutic Research and Wayne State.

Coordinating the symposium were Dr. Walter H. Seegers, professor and chairman of Physiology and Pharmacology and Dr. J. Frederick Johnson, assistant professor.

## MS Clinic Established at College of Medicine

A CONSULTING and diagnostic service for multiple sclerosis patients was established at the College of Medicine in January, according to Dr. John S. Meyer, professor and chairman of the department of neurology.

The service is supported by a \$20,000 grant from the Michigan chapter of the National Multiple Sclerosis Society.

Dr. John T. McHenry, associate professor of neurology and director of the new clinic said, "Under the terms of the Society's affiliation, the department of neurology will provide neurological supervision and clinical evaluations for the referring physician. The ultimate responsibility for patient care rests with the family physician and it is he who should initiate those community resources available and medically approved."

Research into the cause of MS will also be conducted by the Department of Neurology.

Physical therapy and related treatments will be administered at the Rehabilitation Institute of Metropolitan Detroit and other agencies.

## Lucien Howe Award Goes to Ruedemann

FOR HIS noteworthy contributions to Ophthalmology, Albert D. Ruedemann, Sr., M.D. Professor and Chairman of the department of ophthalmology, received the Lucien Howe Award from the University of Buffalo Thursday, April 9.

Presentation was made by Clifford C. Furnas, chancellor of the University at a meeting of the Buffalo Ophthalmological Club.

The Howe award is given annually to an outstanding ophthalmologist.

Dr. Ruedemann graduated from the University of Michigan medical school in 1923. He was certified as a specialist by the American Board of Ophthalmology and Otolaryngology in 1929. He organized and headed the department of ophthalmology at the Cleveland Clinic for 23 years.

In 1947, Dr. Ruedemann came to Detroit to head the ophthalmology department at Wayne State. The Kresge Foundation asked him to organize an eye institute in 1948.

## Ob & Gyn Residents' Day Brings Back 150 Doctors

MORE THAN 150 former residents and guests attended the first "Residents' Day" of the Department of Obstetrics and Gynecology February 25 in the Wayne County Medical Society auditorium.

Dr. Clyde L. Randall of the University of Buffalo College of Medicine was the dinner speaker. Dr. Randall, professor and chairman of Obstetrics and Gynecology, spoke on "Oophorectomy and the Consequences."

Paper presentations during the morning covered some of the basic science aspects of obstetrics and gynecology.

Speakers and their topics: Some Aspects of the Coagulability of the Blood, Dr. Walter Seegers; Adrenal Cortical Function Related to the Practice of Obstetrics and Gynecology, Dr. Robert Leach; Aspects of Blood Antigens and Antibodies Important to the Practice of Obstetrics and Gynecology, Dr. Wulf Zuelzer; The Chemistry of Cancer—Antimetabolites—The Future of Chemotherapy, Dr. James Orten; Certain Clinical Concepts of Enzymes and Enzyme Systems, Dr. Arthur H. Smith; What Every Obstetrician Should Know About Genetics, Dr. Gabriel Lasker.

During ward rounds at Receiving Hospital, there was a brief presentation on the "Current Treatment of Pelvic Inflammatory Disease."

Clinical panels in the afternoon were: "Sterility and Infertility," Surgical Emergencies in Obstetric Practice" and "The Prevention and Treatment of Severe Pre-eclampsia and Eclampsia."

## Davies Tours S. America, Lecturing in 6 Countries

DISEASES OF the Macula and Anterior Chamber Epithelium were the lecture topics of Dr. Windsor S. Davies on a months' tour of six South American countries.

Dr. Davies, on invitation from the Pan-American Ophthalmological Society, spoke to groups in Rio de Janeiro and Sao Paulo, Brazil; Montevideo, Uruguay; Buenos Aires, Argentina; Santiago, Chile; Lima, Peru and Bogota, Columbia.

Dr. Davies is clinical professor of ophthalmology at the College of Medicine and chief of the pathology department at Kresge Eye Institute.

## Geo. Clifford Becomes 3rd Markle Scholar

ONE OF the most coveted honors in academic medicine has been awarded to an assistant professor at the College of Medicine.

Dr. George O. Clifford, 34, was named a Markle Scholar by the directors of the Markle Foundation in New York City in March.

Dr. Clifford, whose special research field is clinical hematology, will receive a total of \$30,000 in a five-year period.

Wayne was represented in the first group of Markle Scholars by Dr. John Davis Green in 1948. Dr. Alfred Jay Bollet, assistant professor of medicine, was named a Scholar in 1956.

Since the foundation began its awards program in 1948, 250 faculty members in 74 medical schools have been named Scholars. The purpose of the Markle Foundation is to advance knowledge in the field of medicine by encouraging

young doctors to stay in academic medicine — teaching and conducting research.

Dr. Clifford was born in Akron, Ohio, and attended Wabash College and Harvard University. He received his M.D. degree from Tufts

University School of Medicine in 1949.

Following his internship at Henry Ford Hospital, he became a fellow in internal medicine at Wayne State University in 1950. He was recalled into the Army for service in Korea, where he was battalion surgeon in the Second Infantry Division. He returned to WSU in 1955.

Dr. Clifford is chief of the clinical hematology service, junior associate in medicine and director of intern training at the medical school's major teaching hospital, Detroit Receiving. He is a member of the American Federation for Clinical Research and the American Board of Internal Medicine, and is a diplomate of the National Board of Medical Examiners.

## Psychiatry Head Named Franklin Memorial Professor

DR. JOHN M. Dorsey has been named the Franklin Memorial Professor in Human Relations for 1960. Selection was made by Pres. Clarence B. Hilberry on the basis of recommendations of a faculty committee.

The appointee has been at Wayne since 1946, as a professor and chairman of the department of psychiatry.

His many humanitarian and civic activities, as well as his professional attainments, have been widely recognized. He has published widely in his field.

Since 1942 he has been a member of the Highland Park Board of Education. At one time he was consulting psychiatrist at Children's Center, Detroit (1938-47), and psychiatrist, Wayne University School of Public Affairs and Social Work.

He is now medical director of McGregor Center (since 1947); director of the Child Guidance Division, Children's Fund of Michigan (since 1942); staff physician, Harper Hospital; chief consultant in psychiatry, Dearborn Veterans Hospital (since 1947); head of the psychiatric service, Children's Hospital of Michigan; consultant for the Kingswood School and for the Veterans Administration regional office; member of the Detroit Public Schools Committee on Mental Health; member of Michigan State Medical Society Mental Hygiene Committee; and head of psychiatry, Detroit Receiving Hospital.

## Dr. Berk Given MSMS Service Award

THE DISTINGUISHED Health Service Award of the Michigan State Medical Society was given to Dr. J. Edward Berk, clinical associate professor of medicine and chief of medicine at Sinai Hospital March 12 at the Michigan Clinical Institute.

Dr. Berk is current president of the American Gastroscopic Society, vice president-elect of the Detroit Gastroenterological Society and treasurer of the Bockus International Society of Gastroenterology.

## Sacrificed Lunch Hours Yielded Concert Journey

LUNCH HOURS sacrificed for song practice won 29 College of Medicine students a free trip to Chicago and a concert date.

The men's chorus gave a 30-minute concert before 500 guests at the formal banquet of the Student American Medical Association Friday, May 1, at the Sheraton Towers Hotel.

William Vonvaltner, sophomore medical student of 18619 Oakfield, is director of the chorus composed of freshman and sophomore students.

"The group practices every chance it gets—but our only free-time is the one hour lunch break. So we take 10 to 15 minutes to eat and spend the rest rehearsing," said Vonvaltner.

All expenses for the two-day trip were paid by a grant-in-aid from Sherman Laboratories of Detroit and the Student Activity fund.

Members of the chorus are Howard Sawyer, Bruce Kyburz, Robert Threlkeld, Ben Mayne, Joseph Jannuzzi, Jack Clark,

On May 19, the new six member W.S.U. Board of Governors took the oath of office and attended their first business meeting. They are from left, Leonard Woodcock, Detroit; Clair A. White, Bay City; Jean McKee, Grand Rapids; Michael Ference, Jr., Dearborn; Dr. DeWitt T. Burton, Detroit; Benjamin D. Burdick, Detroit.

Gerald Rakotz, Thomas Schenck, Leo Bores, Carl Dila, Eugene Gelzayd, Merton Crouch, Robert Wootton, Joseph Rizzo, Wally Palutke, Richard Kahan, Gerald Cyrowski, Roger Greenberg, Arthur Pappas, Charles Winkelman, Drake Duane, Leslie Piskitel, Leo Zacharski, Steve Georgiou, David Wilson, David Swan, Hugh Allen, Norman Komar.

## Hertz Gives Cancer Lectures

DR. RAY Hertz of the National Cancer Institute was special Squibb Centennial lecturer and consultant at the College of Medicine February 23 to 25.

During his three-day visit, Dr. Hertz spoke at an evening convocation on "Endocrinology and Therapeutic Studies on Choriocarcinoma and other Hormone-Producing Tumors," and served as consultant for the Department of Medicine.

Dr. Hertz has been chairman of the Endocrinology Section of the National Institutes of Health since 1947. His most outstanding contributions have dealt with the physiologic effects of androgens and estrogens in man and the appraisal of the concepts of endocrine influences on cause and control of abnormal and neoplastic growth.

## 5 Students Recognized at Convocation May 29

A SPECIAL recognition ceremony for students winning scholarship honors and other awards was held May 29 in conjunction with the weekly student-faculty convocation.

Dean Gordon H. Scott announced the following honors:

Ronald Seltzer, president of the junior class, as recipient of the Theodore A. McGraw Memorial Scholarship award of \$100; based on scholarship, leadership and social responsibility—characteristics of the man in whose memory the award is made.

Martin Nosen, the Medical Alumni Sophomore Scholarship Award of \$50 for having the highest scholastic average.

Barbara Theuerle, junior, the Sheard-Sanford prize of \$100 from The American Society of Clinical Pathologists for her manuscript "Effect of Norepinephrine on Myocardium of Rabbits."

Anthony Kales, the Smith, Kline & French Foundation award of \$100 for the best thesis on psychiatry by a senior. His paper, "Psychological Adaptation to Hysterectomy."

Thomas F. Moore, \$200 from the Women's Auxiliary of the Michigan Industrial Medical Association to the senior writing the best thesis on any aspect of medicine having reference to occupation. His paper, "The Problem of Noise in Industry."

### Lederle Faculty Award Goes To Benjamin M. Lewis

BENJAMIN M. Lewis, M.D. of the College of Medicine was chosen by the Lederle Medical Faculty Awards committee as recipient of one of their 1959-60 awards in February.

Dr. Lewis, an assistant professor of medicine, will receive \$12,787.50.

The award is given to persons nominated by their school as having outstanding qualities in the teaching of pre-clinical or clinical subjects. The Lederle awards plan is designed to assist medical faculty in their work and further their teaching and research.

In addition to his teaching, Dr. Lewis is developing a technique by which the resistance of the pulmonary membrane to diffusion can be measured in heart failure.

Dr. Lewis, 33 years old, graduated from the University of Pennsylvania School of Medicine in 1949. He was a research fellow at Harvard University from 1950 to 1953. He became a fellow in physiology and then an instructor at the University of Pennsylvania from 1953 until 1955.

Dr. Lewis was appointed to the College of Medicine in 1956. He is a consultant in pulmonary physiology at Veterans Administration Hospital and Associate Attending Physician, Detroit Memorial Hospital.

His professional societies: American Federation for Clinical Research, American Physiological Society, Central Society for Clinical Research, American Medical Association and the Michigan State and Wayne County Medical Societies.

Dr. Lewis is married, has one child and lives at 544 Neff Lane, Grosse Pointe.

### WHO'S WHO

Three College of Medicine faculty members are listed in the 1958-59 edition of *Who's Who of American Women*.

They are: Dr. Esther H. Dale, associate professor of pathology; Dr. Aline V. Orten, Department of Physiological Chemistry and, Marjorie J. Darrach, medical librarian.

## Former Students Say 'Thanks' to Dr. Myers

FORMER STUDENTS of Dr. Gordon B. Myers of the College of Medicine, in recognition of his "inspiring leadership" have established an annual award in his name.

The Gordon B. Myers award in Internal Medicine, \$100 and a scroll will be given to the graduating senior who distinguishes himself in courses given by the Department of Medicine.

Dr. Myers is professor of medicine and heads the University service in Internal Medicine at Harper Hospital. He was department chairman for 21 years. He resigned from this post in 1958 so that he could devote his entire energies to teaching and research.

The award was made possible by contributions from former residents and fellows who received post-graduate training under Dr. Myers.

Dr. Myers received his M.D. degree from the University of Michigan in 1927. He served his internship and residency at Detroit Receiving Hospital and Peter Bent Brigham Hospital in Boston. Other post-graduate work was done in Germany. Dr. Myers received his appointment to the College of Medicine in 1934.

## Venezuelan Officials Get Report from Gould

A REPORT on chronic myocarditis, the number one public menace of Venezuela, was filed with health officials of that country in May by Dr. S. E. Gould.

Dr. Gould, clinical professor of pathology, spent two months making a study of the disease upon invitation from the Venezuelan government.

In Valencia, Venezuela's fourth city, population 88,700, 43 per cent of the adult deaths exclusive of accidents are caused by the disease.

The Venezuelan inflammatory heart ailment is not related to the disease of common heart attacks in the United States. In the Venezuelan type, all four chambers of the victims' heart become enlarged. Fluid collects in the heart's tissue spaces.

"The disease is common where the insect *Triatom* is common. Blood serum tests for the parasite are positive in a high percentage of cases," Dr. Gould said. "There is a good possibility not proved, that *Triatom* is the carrier of chronic myocarditis."

Dr. Gould, director of laboratories at Wayne County General Hospital was guest of Dr. Jose I. Baldo, director of chronic disease control and lectured at the Central University of Venezuela.

### Seegers N. Y. Academy Fellow

DR. WALTER H. Seegers, professor and chairman of the department of physiology and pharmacology was named a Fellow of the New York Academy of Sciences in December.

Last year Dr. Seegers was recipient of the \$17,000 Commonwealth Fund special creative scholarship award.

Dr. Seegers joined the Wayne State faculty in 1945. He received his B.A., M.S., and Ph.D. degrees from the University of Iowa.

### \$250 ESSAY

Dr. Shirley J. Phelps '58, won third prize in the 1958 Schering Award contest for her paper on "Use of Tranquilizer Therapy in Office Practice." Dr. Phelps received \$250. She is now completing her internship in San Diego, California.

## 7th Trauma Symposium Draws 250 Doctors

MORE THAN 250 Michigan doctors attended the Seventh Annual Symposium on Trauma December 3 at the Wayne County Medical Society's headquarters—The David Whitney House.

Sponsors were the College of Medicine and the Michigan Committee on Trauma of the American College of Surgeons.

Patients with problem cases of hand, facial and knee injuries were presented in the morning sessions by Drs. Joseph Posch, William Lange and A. Jackson Day. Consultants for these sessions were: Dr. Michael Mason, Chicago and Dr. Harold Woughter, Flint—hand injuries; Dr. Wallace Steffensen, Grand Rapids—facial injuries; Dr. Maurice Castle and Dr. Joseph Fleming, Detroit—knee injuries.

Dr. Michael Mason, internationally known authority, spoke on "Tendon Injuries of the Hand."

Others speaking in the afternoon sessions were Dr. Bernard Krakauer, Highland Park General Hospital; Dr. John Lichtwardt, Wayne County General Hospital; Dr. Gordon Simpson, Bon Secours Hospital; Dr. William Lange, Grace Hospital; Dr. Donald Economy, Providence Hospital and Drs. H. M. Frost and Robert S. Knighton, Henry Ford Hospital.

Symposium chairman was Dr. Homer M. Smathers.

### Stevenson Named Director

DR. CHARLES S. Stevenson, professor and chairman of obstetrics and gynecology was elected a director of the American Society for the Study of Sterility in April. He will serve three years.

He will also serve as chairman of the committee on local arrangements for the annual meeting of the Society which will be held April 12 and 13, 1960 in Cincinnati.

### Oldest Graduate Dies

DR. DAVID H. Burley of Almont, Michigan, oldest alumnus of the University and the College of Medicine died in April. He was 95 years old.

Dr. Burley graduated from the Detroit College of Medicine in 1893 and began his practice in Almont the same year.

During his years of practice it is estimated that Dr. Burley delivered more than 5,000 babies. In 1953, Almont honored him for his 60 years of medical service by having "Doctor Burley Week." One of his contributions was establishing the first hospital. Later he turned the hospital over to the town.

Dr. Burley was a regular attendant to meetings of both the Alumni Association of the College of Medicine and Michigan State Medical Society. His wife survives him.

### Vorwald Travels to Africa

DR. ARTHUR J. Vorwald of Wayne State University College of Medicine was one of 15 representatives from seven countries to meet in South Africa February 9 to 21 to discuss Africa's problems in pneumoconiosis, a chronic inflammation of the lungs caused by the inhalation of dust—mostly mineral.

Other delegates from the United States were: Theodore F. Hatch, Professor of Industrial Health Engineering, University of Pittsburgh; Dr. O. A. Sander of Milwaukee.

Dr. Vorwald's itinerary included a visit to Dr. Albert Sweitzer's clinic in North Africa and other medical installations in New Delhi and Bombay, India and Tokyo, Japan. He gave a lecture at the University of California on "Occupational Pulmonary Diseases" upon his return in March.

## Class Notes

1911

E. W. Caster, 24711 Ridgedale, Oak Park, Michigan writes that he is now 80 years old and enjoying the pleasures of a relaxed and moderate life, but "still feel I am of some use to my fellow men."

1927

Raymond E. Sculley of Grand Rapids will have a new office address after June 15—20 Burton Street, S.E. His oldest son Gerald is a sophomore pre-medical student at Hope College.

1928

Lt. Col. Robert J. Bernucci, now living in Silver Spring, Maryland, is practicing his specialty—psychiatry—as a career officer in the Army.

1929

Charles H. Speir of Lansing is now with the State Vocational Rehabilitation Office after 27 years in federal medical service. He took over his new post as medical consultant in the O.A.S.I., disability determination section in February.

1934

Harold Koretz of Avon, N. Y. is chief of gastroenterology at the Veterans Administration Hospital in Bath, N. Y.

1940

James H. Higgins who has a surgery practice in San Diego, California is the editor of the San Diego County Medical "Bulletin." He is a former editor of the Wayne County Medical "News."

Maurice Croll conducted a three day eye clinic at the Evangelico Hospital in Anapolis, Brazil. He also spoke before the Anapolis medical society where he was an honored guest.

1941

T. S. Huminski has been elected President-of-Staff at Holy Cross Hospital in Detroit for 1960.

1943

Arch T. Wigle, 1605 N. Arthur in Pocatello, Idaho is president-elect of the Idaho Chapter of the American Academy of General Practice.

Alexander Blain III is now chief surgeon at the Alexander Blain Hospital on East Jefferson Avenue in Detroit. He is vice president of the Family Service Association of Metropolitan Detroit.

1945

Jack Warren Hill is director and chief of medicine, Chong Hua Hospital, Cebu City, Philippines. Dr. Hill is a medical missionary under the auspices of the Re-

formed Church and has been working with the Amoy-speaking Chinese since 1947. (See picture of the Hill Family).

1946

Charles E. Friedgood is an assistant professor of surgery, State University of New York. His practice is devoted to thoracic and cardiovascular surgery in Brooklyn. In November he addressed the World Medical Association in New York on "Role of Antibiotic Resistant Organisms in Infections of the Lung."

1947

Louis F. Hayes, of Gaylord, Michigan indicates he has returned from duty with the Armed Forces. Which branch or where, he didn't say.

1947

Fred C. Dalton is director of the largest clinic in New York area serving children only. "We're happy with our new status in the community. Occasionally I even get home for dinner with my family of—two girls—one wife." His address: 165 N. Village Avenue, Rockville Centre, New York.

1949

Wolfgang H. Markgraf is staff surgeon at the Bay Pines V.A. Hospital in Florida. A recent contribution to the American Journal of Surgery "Cecal Carcinoma Masked by Acute Appendicitis."

Robert D. Laird of Plymouth, Mich., recently completed requirements for a Ph.D. in Pharmacology at the University of Michigan. He received his M.S. from Wayne State in 1952. On January 1, 1959 he became medical director of Sherman Laboratories in Detroit.

Russell I. Pierce is medical officer in charge of the United States Public Health Service 108 bed Indian Hospital in Albuquerque, N. M. Previous to this appointment in October, 1958, he was with the American Embassy in Paris, France.

1952

C. M. Ebner recently opened an office for the practice of internal medicine at 26401 Harper, St. Clair Shores, Michigan.

Robert J. Schoenfeld has opened an office in the Wabeek building, Birmingham, Michigan. He is also a clinical instructor in the department of dermatology and syphilology at the College of Medicine.

1954

David A. Penner is in his second year of surgical residency at Detroit Receiving Hospital. He has two daughters, Linda, 4 and Susan, 3.

B. L. Anderson has opened an office at 8900 E. Jefferson and is practicing psychiatry.

Edward J. Treisman is completing his residency in general surgery at Sinai Hospital in Detroit. He will begin active duty with the Army some time in 1959.

William J. Donnelly is practicing pediatrics in Pontiac. He lives with his wife and three sons at 17 Delaware Drive.

1955

Van O. Keeler of Otsego opened an office for general practice in 1957 and says he now needs an assistant. In December, a third daughter was born.

Allan C. Beck is taking a general practice residency in California which will be completed next January. He is married and has a namesake son.

1955

Helen M. Nutting completed her training in pediatrics at Children's Hospital last June and has opened an office at 22631 Greater Mack Avenue, St. Clair Shores, Michigan.

## IN MEMORIAM

- Archibald Mac Gregor, Class of 1901  
Battle Creek, Michigan  
*September 17, 1958*
- John Sprunk, Class of 1920  
*September, 1958*
- Joseph G. Weiss, Class of 1935  
Detroit, Michigan  
*November, 1958*
