Dr. Charles Ryan Faculty Advisor

As you all know, last year I asked President Bonner to be relieved of my responsibilities as Dean of the College. A search committee is being put together and there should be a new Dean sometime this year.

During the past seven years we have met many of our goals. At this time both pharmacy programs are fully accredited and our graduates are of high quality. We accomplished this with only meager resources and our costs per student are far below the national average. This means that we have a dedicated, hard working faculty. I want to thank all for their support and friendship and wish all my best for the future.

It was with a great deal of regret that the Faculty recently learned of Dr. Eberhard F. Mammen's intention to resign as the Dean of the College of Pharmacy and Allied Health Professions. Dr. Mammen has served as Dean since the College was formed in 1974 as a result of the merger of the former College of Pharmacy and several Allied Health departments from the College of Medicine. Our College's loss is the College of Medicine's gain: Dr. Mammen will return to the College of Medicine as Professor of Pathology and Physiology and will resume full-time research and teaching duties. He will be sorely missed and difficult to replace. We hate to see him go.

Dr. Charles J. Ryan
Deputy Dean of Pharmacy

OPEN HOUSE '80
