SEIU (Service Employees International Union) placed the Local 32B-32J collection in the Library of Labor and Urban Affairs in June, 1995. The collection was opened for research in December, 1995.

Local 32B is located in New York, NY, and was founded on April 19, 1934 largely through the efforts of James Bambrick, who would become the first president of the Local. Within months the young Union was on strike in the garment district; within days the Union won rights to a closed shop and gained a substantial number of new members. A number of membership benefits were established and the Local began to lobby legislators in Albany. Membership had expanded to 40,000 by 1960 when David Sullivan left as president of 32B to assume the Presidency of the International Union. Thomas Shortman succeeded him as President of the Local and led 32B from 1960-1972. In the mid seventies Arthur L. Harckham was President. During the years 1976-1981 John J. Sweeney led the Local and oversaw the largest merger in SEIU history as Local 32 B merged with Local 32J. 32J had been charted in 1936 and was composed largely of women building service workers. The new 32B-32J had over 46,000 members.

For more information on the Local please refer to Local 32B-32J: Sixty Years of Progress.

This collection is comprised entirely of correspondence from the members of the Local to the Union officers, and the Union reply. The subjects include benefits, grievance and arbitration matters, requests for employment, and a large number of letters from retired members on a variety of issues. There are also a few files pertaining to individual members.

- Trade Unions—Officers and Employees

Abstract
See Part I for the history of SEIU prior to 1981. Former Local 32B-32J President John J.
