The papers of Katherine Pollak Ellickson were placed in the Archives of Labor and Urban Affairs by Ms. Ellickson in 1969 and were opened for research in 1970. Additional papers were placed in the Archives in December of 1978 and in 1984 and 1989 and were opened for research in September of 1979 and July of 1998, respectively.

Katherine Pollak was born September 1, 1905, the daughter of Francis D. Pollak and Inez Cohen. She attended and taught at the Ethical Culture School in New York City, studied economics at Vassar College (A.B., 1926) and did graduate work at Columbia University. She married John Chester Ellickson, agricultural economist, in 1933, but continued to use her maiden name until 1938.

Her years in workers' education included tutoring, teaching and writing for the Bryn Mawr Summer School for Women Workers (1927-49), Brookwood Labor College (1929-32), including field work in Southern textile mill towns and West Virginia coal camps, and the FERA Southern teachers' training school in 1934.

As assistant to the director at the CIO national office (1935-37), she dealt with many organizational problems while conducting research and writing, and her papers include original notes and minutes of the earliest CIO meetings.

At the CIO national office, as Associate Director of Research from 1942-1955, she was secretary of the Social Security Committee; organized meetings of national union Social Security directors to discuss collective bargaining and legislative problems; served as liaison between the research directors of the national unions and government research agencies, especially the Bureau of Labor Statistics, and represented the CIO on government advisory committees on Social Security, manpower, farm labor and women and children. She also worked and wrote in related areas like legislation, postwar planning and the guaranteed annual wage.

At the AFL-CIO national office (1955-61), she was assistant director of the Social Security Department and had special responsibility for old age, survivors and disability insurance and public assistance, including intensive efforts to secure passage of health insurance legislation that was a precursor of Medicare.

Her papers and records kept during her years as a member of the President's Commission on the Status of Women reflect the preliminary efforts which led to its formation as well as her responsibilities as its executive secretary.

Less extensive files reflect her work for the BLS on company unions (1935); the National Labor Relations Board, especially on Western Union's company union (1938-40); the Social Security Board (1940-41); the Labor Bureau of the Middle West (1942); the President's Committee on Equal Employment Opportunity and the Equal Employment Opportunity Commission, (1963-65); HEW on women and social security (1966-67); and volunteer work for the Continental Congress of Workers and Farmers (1933), the American Federation of Teachers in North Dakota (1934-35) and, later, for the National Consumers League, the D.C. League of Women Voters, various groups dealing with women's problems and the River Road Unitarian Church.
