Series IV
UAW Regions, 1957-1962
Boxes 14-24

Correspondence, reports, press releases, financial statements, notes, and clippings. Most of these records consist of correspondence with staff members of the regions.

To assist the researcher secondary entries indicate the names of the staff members. There are some other records relating to citizenship councils and local unions. With the exception of Michigan, there are records relating to election campaigns and to correspondence with United States congressmen about their campaigns. These records are in folders which are placed at the end of each region. The records concerning congressional elections in Michigan are found in Series VII. The records of Series IV are arranged numerically by number of region. The staff members are listed first and the other categories-citizenship councils, local unions and elections and correspondence with congressmen are listed next. To assist the researcher, the folder entries provide information about the geographical location of the regions. For space purposes, some of the states within a given region are abbreviated. Most of those states which are abbreviated are ones in which the UAW did not actively engage in election activity. Most of the records in this series relate to the role of the UAW in congressional elections within each region, and this topic is well documented.

Series V
AFL-CIO Departments, State Labor Councils and Unions, 1957-1962
Boxes 24-27

Correspondence, reports, contribution lists, and handwritten notes. The records of this series are divided into three sections - departments and committees, state labor councils, and unions. There is a large amount of material relating to the committee on political education, including three folders on contributions for the 1958 election. (A few of the records in these folders list UAW contributions). There are, however, almost no records relating to other departments. Most of the data on state labor councils relates to Michigan. There are only three folders of records relating to unions.

Series VII
Michigan Elections and Election Issues, 1957-1962
Boxes 30-41

17

Correspondence, minutes, reports, press releases, election statistics, publicity material, handwritten notes, and clippings. These records relate to election activity within the state of Michigan, including the city of Detroit. These records are divided into two sections. The records of Section I pertain to election campaigns. They are arranged chronologically, and secondary folder entries indicate particular elections. The records relate to various state and congressional elections, and correspondence with candidates about their campaigns is included. Since the records are arranged by date of election, some folders may contain records which are dated the year before or the year after the election. Some of the correspondence in folders labeled 1958 Elections, for example, is actually dated 1957, and a few of the records are dated prior to August 16. The records of Section II relate to campaign issues, and they are arranged alphabetically. There is a large amount of material on the Governor's election of 1960, on the Constitutional convention elections of 1961-1962, on voter registration in Wayne County, on election issues in Detroit, on industrial development, on proposals to reapportion the state legislative districts, and on taxation legislation.
