Some of the material found are technical reports of a variety of subjects. Of particular interest are records relating to significant changes in aircraft passenger compartment design. Material documenting ALPA's role in human rights protests can also be found here.

## Acquisition

In 1967, the Air Line Pilots Association, ALPA, designated Wayne State University as its official repository for the inactive historical records of ALPA. The records of the Air Line Pilots Association Atlanta, Georgia Joint Council Office (JCO)/Field Office (FO) were deposited in the Archives of Labor and Urban Affairs beginning in the early 1970s through the present by managers Nicholas A. Gentile and Robin A. McClary of the Atlanta FO; E.H. Moldenhauer, Jr., director of the Atlanta FO; Tobi Brimsek, ALPA Washington, DC office; and Peggy Ewell, Office Support Services, ALPA Herndon, Virginia.

## History

The ALPA Atlanta Field Office is currently still in operation. The ALPA Atlanta location is also home of the Delta Air Lines Master Executive Council (DAL MEC), the main ALPA office representing all ALPA pilots flying for DAL.

“Joint council office” literally means that more than ALPA Local Executive Council (LEC)—local union—shares office space with another. The councils domiciled in the Atlanta office were Airlift International Airways (ALI) #88, Delta Air Lines (DAL) #44, Eastern Air Lines (EAL) #7, Piedmont Airlines (PAI) # 40, and Southern Airways (SOU) #112. ALPA changed the designation of the Atlanta area office from a joint council to a field office in the 1970s.

ALPA field offices provide services to local and regional area pilot members of the Association on a variety of levels such as grievance procedure, contract administration, negotiations, strike information and support. Pilot members served and represented by a particular regional field office (usually situated in a larger city whose airport is a major hub for one or more airlines) may be employed by several different airlines. In addition to member service functions, the field office is essentially a satellite office for the ALPA home office, or Association headquarters. The person in charge of the operation of the field office is the Field Office Manager, and this person is directly responsible to the ALPA President. Additionally, the office manager maintains regular communication with other Association officers and ALPA headquarters departments.

## Scope and Content

Records relating to individual airline LECs from sixteen different states and the District of Columbia representing eight different air carriers are found in the Atlanta Field Office collection. The employing airline, the LEC number, and the location of individual LECs, are as follows: ALI LEC #88, Atlanta, and #114, Miami. DAL #9, Boston; #43, Chicago; #47, Dallas; #48, New Orleans; #66, Memphis; #71, Miami; #131, Houston, and #136, Newark, New Jersey. EAL #18 and 51, New York; #55, Philadelphia; #61, Houston; #72, Boston; #76, Chicago, and #142, Washington, DC. Pan American Airways (PAA) #6, New York. PAI #26, Roanoke, Virginia; #120, Winston-Salem, North Carolina; #121, Wilmington, North Carolina; #122, Norfolk, Virginia, and #148, Washington, DC. Republic Airlines (REP) #22; #73, Miami; #74, Memphis; #89, Chicago; #111, San Francisco; #126, Romulus, Michigan, and #136, Las Vegas. SOU #20, New Orleans; #73, Miami; #74, Memphis, and #75, Fort Walton Beach, Florida. Finally, United Airlines (UAL) #34, San Francisco, and #150, Miami. Some of the materials found in the field office records are technical reports on a variety of subjects. ALPA contracts with several airlines are also among the Atlanta Field Office records. Additionally, “Friday Packs,” a compilation of news clippings, correspondence and other materials relating to the weekly operation of the Atlanta Field Office are also included. Other items of note are minutes and reports relating to contract negotiations with various airlines.

Of particular interest are records relating to significant changes in aircraft passenger compartment design. Documented is British Overseas Airway Corporation's (acronym BOAC—now British Airways) decision in 1967 to install overhead luggage storage compartments on all its planes. This design, and its subsequent procedures, now has largely become the airline industry standard.

A small amount of material on the formation of Southern Airways in 1949 is present in the collection. In April, 1980 Southern merged with Republic. Ten years later REP merged with Northwest Airlines (NWA) in May, 1990. NWA subsequently merged with KLM/Royal Dutch Airways, and remains today one of the larger air carriers that have survived the post-deregulation 1980s which evidenced bankruptcies, mergers and corporate dissolutions among several major air carriers.

Materials in the folder entitled "CAP Communications and Awareness Program," document ALPA's role in human rights protests. The protest occurred during 1979 at Morehouse College in Atlanta, Georgia. Joshua Nkomo, head of the Zimbabwe African Peoples' Union (ZAPU), was invited to speak at Morehouse. Nkomo was believed by many to be responsible for the downing of unarmed Air Rhodesia passenger flights during the 1965-1979 civil war in Rhodesia (now Zimbabwe). ALPA protested the presence of the man believed responsible for the loss of innocent civilian lives. Despite Association protests, Nkomo's Morehouse address went ahead as planned.

A number of newsletters and magazines were transferred to the Archives Library. Some of these are as follows: Council News, In Range, The Air Line Pilot (including the special ALPA Story in September 1966, and a biography of Clarence Sayen in September 1965) and Plane Facts.

Visual materials were placed in the Reuther's Audiovisual Department.
