History

"Joint council office" literally means that more than one ALPA Local Executive Council (LEC)—local union—shares office space with another. The councils domiciled in Kansas City office were Trans World Airlines (TWA) #3 and Braniff (BNF) #45. A majority of the records comprising the Kansas City Field Office collection deal with these two airlines, TWA and BNF. ALPA changed the designation of the Kansas City area office from a joint council to a field office in the 1970s.

ALPA field offices provide services to local and regional area pilot members of the Association on a variety of levels such as grievance procedure, contract administration, negotiations, and strike information and support. Pilot members served and represented by a particular regional field office

(usually situated in a larger city whose airport is a major hub for one or more airlines) may be employed by several different airlines. In addition to member service functions, the field office is essentially a satellite office for the ALPA home office, or Association headquarters. The person in charge of the operation of the field office is the Field Office Manager, and this person is directly responsible to the ALPA President. Additionally, the office manager maintains regular communications with other Association officers and ALPA headquarters departments.

The ALPA Kansas City Field Office closed in 1984, but other ALPA field offices are currently in operation around the country in Atlanta, Chicago, Denver, Los Angeles, Minneapolis, San Francisco, and Seattle.

Scope and Content

There are many individual airline LECs from various locations—both within the United States and overseas—represented in the Kansas City Field Office records. In particular, TWA Councils #2 and 24, New York; #3, Kansas City; #4, Los Angeles; #25, Chicago; #41, Boston; #63, Cairo, Egypt; #69, San Francisco and Oakland; #84, Dallas; and #110, Newark, New Jersey. Braniff Councils represented are #29, Miami; #42, Dallas; #45, Kansas City; and #46, Minneapolis.

One topic of particular interest found in the records is a background investigation of ALPA Employment Agreements Department head Lucien Koch. Mr. Koch was associated with Commonwealth College of Mena, Arkansas from 1923 to 1929. The college was thought to be a major source of financing for Communist Party enterprises. During World War II, Mr. Koch was investigated by the federal government and testified before the House Un-American Activities Committee regarding suspected subversive propaganda. This material can be found in the folder entitled "Board of Directors" in Box 7.
