Abstract

The Governmental Affairs Office is presently called the Government Affairs Department and is within the President's Department of ALPA. The primary function of the department is to lobby policy makers in the United States and Canada on behalf of the pilots. The department manages ALPA's Political Action Campaign (ALPA-PAC), and supports the ALPA-PAC Steering Committee, as well as the MEC and LEC Legislative/Political Action Committees, and the International Affairs Committee.

This collection consists of six exhibit packets concerning safety issues. The packets include articles, forecasts, assessments, procedures, correspondence, court documents, reports, etc., from the 1930s through the early 1980s. Nearly all documents are photocopies. Individual packets are undated, but appear to be from the early 1980s. Exhibit indexes not available for all packets.
