Accession Number 1990
L.C. Number MS

The papers of the AFSCME Secretary-Treasurer's Office were placed in the Archives of Labor and Urban Affairs in the fall of 1974 and were opened for research in November of 1984.

The materials in this collection were created during the presidency of Arnold S. Zander, founder and first president of AFSCME (1935-1961). The Secretary-Treasurer's Office oversaw the general financial health of the international union, keeping records for its locals, councils and the headquarters staff. If a council or local were placed under trusteeship or evidenced some other difficulty, files documenting these events were also kept here. This office maintained the payment of per capita dues by AFSCME locals and councils, and issued charters to new locals. It also suspended and disbanded locals or councils when problems arose, such as the non-payment of dues. Union organizing itself was under the jurisdiction of the Director of Organization and was a separate function.

These papers consist mainly of materials relating to the founding and disbanding of thousands of locals and councils in all the states, Puerto Rico, Panama and Canada. Locals of each state were affiliated with a regional or state council and paid dues to the council as well as to the International. On occasion larger conferences were set up which included councils and locals in several states.

During Zander's incumbency, Gordon Chapman was the Secretary-Treasurer for all but a few years. At the first AFSCME convention in Chicago in December 1935 Roy Kubista was elected Secretary-Treasurer. The following year, in September 1936, David Kaness was elected, and he remained in that position until July of 1937. When he resigned, Chapman was appointed and then elected to the post in September 1937 and held it until October of 1944 when he became Executive Assistant to President Zander. H.Z. Collier was then Secretary-Treasurer until May 1948 when Chapman returned to the position. He stayed until May 1961 and was briefly succeeded by James McCormack. In May 1962 Chapman was once again elected to the post and remained in office until September of 1966.

The papers in this collection relate to the chartering, organizing and disbanding of locals and councils in almost every state, Panama, Puerto Rico and Canada. There is also historical information on some councils and locals, and a small amount of documentation of the financial operations of the office, with data on salaries and payroll matters.

Related collections held by the Archives are the Gordon Chapman Collection and the AFSCME: Office of the President--Arnold S. Zander Collection.

Series I
Councils and Locals, 1926-1968
Boxes 1-165

Correspondence, charter applications, a few charters, notices of local renewal, suspension or disbandment, clippings, constitutions, telegrams and contract agreements reflecting the functions of the Secretary-Treasurer. Some of the council and a few local papers detail their histories in jurisdictional disputes with other unions, councils or locals, their relationship with the International in problems with or controversies over both taxes and affiliation, or as trusteeships. Some locals formed by the Government and Civic Employees Organizing Committee (GCECC), the CIO public employee union, became AFSCME locals when AFSCME absorbed the GCEOC at the 1955 AFL-CIO merger. Those that retained their original GCEOC local number are indicated in the folder titles. Materials are arranged alphabetically by geographical designation, and then by conference, council and local. Council files are usually in numerical order, but in special situations are filed chronologically. Locals are arranged by local number. A few materials not generated by councils or locals are placed at the end of the states they concern.
