History

The Executive Board was created in 1947 by the Board of Directors to replace the Central Executive Council. Originally, the Executive Board was mandated to meet twice a year, but this policy was discontinued in 1951, and the board did not meet for another twelve years. During this period, the association used the Executive Committee to cover the duties of the board, as it was a smaller body,

which facilitated decision making. In 1960, another policy change enabled the board to meet at regular intervals again and left open the possibility for special meetings to be called by the president or thirty percent of the Executive Board membership. Since then, the board has usually met at least twice a year. Currently, the board meets during the April/May and September/October periods.

The Executive Board is made up of each member airline's Master Executive Council chairperson; members of the Executive Council are ex officio members of the board. The Executive Board has the power and authority to control the association, its business affairs, and general management, subject to ALPA's constitution and by-laws. The board can also interpret the constitution and by-laws, as well as create or change policy. Meetings include reports by the president, the first vice president, the vice president-administration/secretary, and vice president-finance/treasurer, the Executive Council, and the committees of the Board of Directors, the Executive Board, and the Executive Council.
