Abstract

The SEIU Publications is a collection primarily comprised of serials created by the International, Locals, Joint Councils, and Conferences. Included in the collection are International convention proceedings dating back to the official inception of SEIU, constitutions and bylaws, and serials published at the International level. However, the bulk of the materials are serials created by SEIU Locals, Joint Councils, and Conferences, documenting member concerns and plights, as well as important events and issues of the various coverage eras.

The SEIU Publications is an artificial collection, its contents pulled from other SEIU collections (processed prior to 2012) to create a single grouping of all SEIU publications. SEIU collections processed after 2012 will retain their publications, with the exception of full runs.

Arrangement

Folders are listed by their location within each box. Titles are grouped by creator (i.e., SEIU International, local, council, etc.) and those with multiple issues are listed chronologically. Although many titles have a date range, it does not necessarily guarantee that all published issues of the title within that date range are on file.
