WALTER BACKSTROM

1928 - 2011
GENERAL MANAGER SEIU Local 347

Walter Backstrom was born in Water Valley, MS. in 1928. He moved to Los Angeles, CA with his family in 1938, settling near Central Avenue. He attended public schools, graduated from the University of California at Los Angeles (UCLA), and is an Army veteran of World War II.

Backstrom worked as a refuse collector for the City of Los Angeles before the advent of automation. He became involved in his union, dependably serving as a shop steward and worked tirelessly to organize city employees at a time when public sector unions did not have the right to collectively bargain. His union activism led to work as a field representative at Local 347 of the Service Employees International Union (SEIU), and would later become General Manager of Local 347, building the local from the back of a trash truck. He also served on the SEIU International Executive Board.

In the early 1960's Backstrom organized African American churches, community organizations and businesses to protest the City of Los Angeles' policy of hiring retired police officers with no experience in trash collection for supervisory positions in the Department of Sanitation, while prohibiting existing employees from applying.

He fought tirelessly for the rights of public employees to collectively bargain over wages, hours and working conditions, negotiating the first "Employee Contract" in the history of the City of Los Angeles. Backstrom was also in the forefront of negotiating equal pay for women when he successfully negotiated the single classification of Traffic Officer with the City of Los Angeles, combining the predominately male classification of directing traffic, whom were paid more, with the predominately female position of meter maids, ultimately eliminating the disparity in wages.

After his retirement from Local 347, SEIU beckoned Backstrom to rejoin the SEIU family as Executive Director of SEIU Local 99. He served on the Los Angeles Education Alliance for Restructuring Now (LEARN), a major reform movement from 1992-1995. He also served as founding member of the advisory board for the Labor Union Center at the Los Angeles Trade Technical College.
