PATRICK VINCENT MC NAMARA

Patrick Vincent McNamara was born in North Weymouth, Massachusetts, on October 4, 1894. His parents had migrated to the United States from Ireland shortly before his birth. After completing his public school education, he became an apprentice pipe fitter. He arrived in Detroit in 1920 as a journeyman and served for twenty years as the unsalaried president of Pipe fitters Local 636 (AFL). In 1942 he was appointed Detroit Area Rent Director for the Office of Price Administration and served until the war's end. He then joined the construction firm of Stanley-Carter Company from which he resigned to become the United States Senator from Michigan.

McNamara was active in community affairs and served on the Detroit Common Council, 1946-1947, and on the Detroit Board of Education for 1949-1955.

He was first elected Senator in 1953, re-elected in 1960 and died in office on April 30, 1966. His chief legislative interests were: Federal highway programs, labor-management relations, problems of the aging, education and civil rights. He served on the Public Works Committee and was its chairman from 1963-1966. As head of this committee he also was chairman of the Sub-committee on Flood Control and Rivers and Harbors and was a member of the Sub-committee on Public Roads. He was the ranking majority member of the Labor and Public Welfare Committee and as such was chairman of the Subcommittee on Labor and was a member of the Sub-committees on Education and on Employment and Manpower and a member of the Select Committee on Improper Activities in the Labor or Management Field. In the 88th and 89th Congresses, he also served as chairman of the Select Sub-committee on Poverty which processed the President's War on Poverty and the Economic Opportunity Act Legislation.

McNamara was the ranking majority member of the Senate Special Committee on Aging and served as the first chairman of the Committee during the 87th

Congress. He was chairman of the Sub-committee on Health of the Elderly and earlier, in the 86th Congress, served as chairman of the Sub-committee on Problems of the Aged and Aging. The latter sub-committee, and the subsequent Special Committee which evolved from it, were created by the Senate at McNamara's request.

SUBJECT FILES

222 Boxes

The type of material contained in the Subject Files is varied, but consists primarily of correspondence and reports. Where the Senator has replied to the incoming correspondence, a white carbon copy of the reply is attached to the incoming letter.

The correspondents include local, state, and national government officials; business, civic, and fraternal organizations; and political organizations and party officials.

The period covered is 1955-1966, however the amount of material for 1955 and 1956 is minimal.

The following outline and description is intended to serve as an example of the order of arrangement and of the types of material contained in each major category of the series. Although the files for any given year may vary somewhat from the outline, the major headings will generally be the same for all years. Where there are additions or omissions they will occur in the sub-headings, both primary and secondary. In all cases an alphabetical arrangement has been followed; the exception to this rule being that "General" folders within a heading or sub-heading will precede all others.

Boxes 578 and 579 contain copies of Flexo
form letters.

The Flexo Files consist of material which would normally fit into the legislative Correspondence Files, but because of its sheer bulk it has necessitated a form reply from Senator McWamara and has been maintained separately from the legislative Correspondence Files. New Flexo form letters were regularly composed on subjects of continuing interest.

The annual alphabetically arranged files include, among other topics, Agriculture, Commerce, Health (e.g., humane treatment of animals), International (e.g., Test Ban Treaty), labor (e.g., 14 'b'), Lottery, Social Security, and Taxes (e.g., DuPont-GM stock problems).

LEGISLATIVE ASSISTANTS; WINGE

Edwin Hinge's files consist of fifty manuscript boxes broken down annually into nine topics (see the outline following this description).

These topics include Contracts and Awards which contain the announcements from various Departments and Agencies of contracts and awards for Michigan. See the outline of Contracts and Awards for the arrangement of these files.

Department and Agency Information is the second topic and follows the same outline as the Contracts and Awards files. The Department and Agency Information files contain material relevant to the bodies covered and their activities. In 1961-1963 the Contracts and Awards files and the Department and Agency Information files are combined.

The third division of Hinge's files is the Bill File which is arranged within each year either alphabetically, chronologically or numerically. These are bills either introduced or co-sponsored by Senator McNamara.

Sponsorships is the fourth topic and contains appeals to the Senator from other legislators to co-sponsor legislation. The files are arranged by sponsorships accepted and declined.

Next are the legislation Pending files which contain material on legislation or possible legislation before Congress. Releases, pamphlets, reports, letters and newspaper clippings are included. These files are arranged alphabetically or by bill number.

The Committee material covers the Aging, Labor and Public Welfare and Public Works Committees. Included are reports, releases, clippings and committee prints.

Seven, eight and nine are Campaign, General and State Issues. Included are pamphlets, reports, statements, clippings and letters. The files are alphabetically arranged within each topic.
