

THE MERRILL-PALMER COLLECTION
THE LAWRENCE KELSO FRANK PAPERS

Papers, 1922-1968
(Predominantly, 1960-1968)

5.5 linear feet

Accession Number 1066
L. C. Number

The papers of Lawrence Kelso Frank were placed in the Archives of Labor and Urban Affairs in January of 1982 as part of the greater Merrill-Palmer Collection.

Lawrence K. Frank was born in Cincinnati, Ohio, December 6, 1890. He received his A.B. degree from Columbia University in 1912 and began his association with foundations that supported research in child development in 1923, working first with the Laura Spelman Rockefeller Memorial, followed by the Josiah Macy Jr. Foundation (1936-1942) and the Caroline Zachry Institute of Human Development (1945-1950). During the 1920's and 1930's, he was a leader in the movement to set up child study institutes, and throughout his life, he wrote and lectured widely in education, psychology and child development. He received an honorary degree of L.L.D. from Wayne State University in 1959. Mr. Frank died in Boston, September 23, 1968.

Mr. Frank did consultation work for Merrill-Palmer, and had an association with that institution dating back the 1920's when he worked with the first director, Miss Edna Noble White. His papers, however, reflect this association only in a few published pieces. Instead, they focus on the broad scope of his publications and on two areas of professional concern: that of consultant in the planning of the establishment of a Friends World College and as committee member of the American Association for the Advancement of Science.

Important subjects covered in the collection are:

American Association for the Advancement of Science
(AAAS), 1955-1963
Education and Mental Health
Friends World College, 1960-1968
Urban Housing
Women in Society

Among the important correspondents are:

Barry Commoner
Ross L. Mooney

Morris R. Mitchell
Margaret Snyder

An index to subjects and correspondents will be found on p. 17
An index to manuscripts and publications will be found on pp. 8 ff.
